Sir:

SUPPLEMENTAL AMENDMENT

After entering the "Amendment In Response To Communication" dated June 18, 1997,
please amend the above-captioned application as follows:

In the Claims:

116. (Amended) A method of making a coronary angioplasty catheter balloon,
the method comprising:

(a) co-extruding a tube having a first tube layer comprising a first
polymeric material and a second tube layer comprising a second polymeric material which is
different than the first polymeric material; and

(b) longitudinally drawing and radially expanding the tube to make a
resulting balloon which is sized and configured for intravascular coronary angioplasty use
